

DISASTER PRELIMINARY DAMAGE SELF-REPORT SURVEY

Lafayette Parish residents who have experienced property damage are encouraged to self-report damages to the state. Those reports will be provided to the Lafayette Office of Homeland Security and Emergency Preparedness.

The state will use the self-reporting damage survey to assess the type of damage that occurred. The state and each parish must meet a dollar amount threshold to be eligible for federal assistance. This is the first step in the recovery process and does not guarantee disaster relief assistance.

Visit damage.la.gov or scan the code below to report damage.

In addition, for immediate needs, dial 211 and they may be able to assist you.
